Wash Away

Dualtrx

Float down stream, rivers of dreams
Float down stream, catch your wings
Heavens high, so you fly
Catch your dreams in the sky
But the glaciers have frozen your feet
I can't wait for eternity
And so you watched me wash away
But maybe we'll catch up someday
Maybe well catch up someday
Sun sinks out of view
Stars they shine changing hue
But bright lights have blinded your sights
They cant adjust when day turns to night
And so you watched me wash away
But maybe well catch up someday
The castles we built were so tall
They only left us further to fall
And still I see them far away

But maybe we'll come back someday
Maybe we'll come back someday
Float down stream, rivers of dreams
Float down stream, catch your wings
The castles we built were so tall
They only left us further to fall
And still I see them far away
Maybe well come back someday
The castles we built were so tall
They only left us further to fall
And still I see them far away
As I watch them wash away
Wash away
Wash away
Wash away
Wash away
