

# Plum Island

## Waterparks

I wanna live life with heavy '11 vibes  
We didn't have approval before label signs  
Multiple times  
I can't wait for the complaints  
About cut vocals and pop  
'Cause y'all are stuck in the past  
And I've got a crystal ball "Nobody wants to hear you cry about your breakup, so drop it."  
Well, that's fine too because I'm fucking sick of talking about it  
Let's talk about shows and ghosts and shows and clothes  
designs and shows and shows. (okay I think you might be right) See, I'm like you without good moods and  
My cave's my room where I'll cave too  
Yeah, I'm like you without good moods  
And you'll be sorry when you come to  
Lose your mind I treat walking the plank  
Like I'm jumping off a diving board  
Listening to The Latest Plague  
I breathe nostalgia until I'm bored  
I can't just give a love song  
Without a bitter aftertaste  
I'm afraid to dive headfirst  
And crack my brain out of it's cage It's harder than it should be  
For me to be straightforward  
Like even when I did  
I couldn't tell her I adored her  
Which I know is messed up  
And I know I messed up  
But at least I 'fessed up  
Now of course it's too late  
See, I'm like you without good moods and  
My cave's my room where I'll cave too  
Yeah, I'm like you without good moods  
And you'll be sorry when you come to Lose your mind I could live on a life raft next to you  
I would swim if it keeps me close to you  
If you fall I'll swim right back to you  
I could live on a life raft next to you've been building this island every day  
Waiting for the right time to get away  
Every day, I'm more numb to the Sad Game  
So I'll just live on this island until I break See, I'm like you without good moods and  
My cave's my room where I'll cave too

Yeah, I'm like you without good moods  
And you'll be sorry when you come to Lose your mind I could live on a life raft next to you  
I would swim if it keeps me close to you  
If you fall I'll swim right back to you  
I could live on a life raft next to you I've been building this island every day  
Waiting for the right time to get away  
Every day, I'm more numb to the Sad Game  
So I'll just live on this island until I break
