

# Please Shut Off The Lights

## Knapsack

It wraps around the cord for him  
Said I'm wasting, sinking  
Soaking in to bones and cartilage  
Crossing out the quarter where he livesSo I have arrived  
Know this nothing gets me nowhere  
Know I am larger than this lie  
Our generationsI have only one regret  
At the moment I forget  
Any takers on this life  
And if you're the last one left  
This is my request  
Could you just shut off the lightsTake a sample and let it testify  
Drowning endless estimation anger of my life  
Terrorized to the ending of my end  
Everything is absent is nothing I can giveSo I have arrived  
Know this nothing gets me nowhere  
Know I am larger than this lie  
Our generationsI have only one regret  
At the moment I forget  
Any takers on this life  
And if you're the last one left  
This is my request  
Could you just shut off the lights
