Run

Catie Curtis

You're not afraid of the water
You're not afraid to go in
You're not afraid of going underBut I don't know how to swim
When the time has nearly come
I remember I can run, runYou see a house across the water on the other side
You want to go, go together
You want me by your sideWhen the time has nearly come
I remember I can run, run
From the water, from the water, runAnd I can tell, you're the only one
I can tell you you're the only one, runI see you swim like you were born there
In the glimmer of the sun
And from the side I say I'll meet you
I can't follow you but I can run, run
Run, run, runAnd I can tell you you're the only one
I can tell, you're the only, run, run, run
