

That's A Man

[Kim Mitchell](#)

He's got eyes like burning embers
He's looking for relief
Going faster double blind
His reputation is getting loud, yes That's a man
That's a man
That's a man
That's the best part of a man You know he's having trouble
Saying yes to his woman on the telephone
'Cause he's got another woman
Waiting on the other line
And he sits in public places getting loud, yes That's a man
That's a man
That's a man
That's the best part of a man
