

Gravity Bong

Meth Wax

We're not so different you and I
I guess that's why I keep coming back to you
Maybe it's the colour of your hair
Or how you genuinely seem to care

Maybe I'm just crazy to think and tie those wounds
To get down those secrets From the past I've excluded and
Maybe I'm out of my head?
Maybe I just miss your lips.

We're not too different you and me
And now i see why I'm always craving you
Maybe it's the way that you smell
Or how you have me captured under your spell

Maybe I'm just crazy to think and tie those wounds
To get down those secrets From the past I've excluded and
Maybe I'm out of my head?
Maybe I just miss your lips. (X2)
