

Sun

High Highs

One day, I was so sad
Take it as a gesture
Best I can
I'm hesitant to feel love again
We parted at the shoreline
Alone on the earth You and me
We were strangers
You'd always say, "Deliver us the sun!"
Won't you come?
Patient
To be patient again
There's a shift in the balance
And it feels safe
Standing at the shoreline
You tear us apart Feel alright
Not a day will coincide
Not that I believe
I believe You and me
We were strangers
You'd always say, "Deliver us the sun!"
Won't you come? Feel alright
Not a day will coincide
Not that I believe
I believe
You and me
We were strangers
You'd always say, "Deliver us the sun!"
Won't you come?
