

1000 Mile Stare

Mutoid Man

your vision is impaired
you hit me with a thousand-mile stare
you're looking at somewhere
and will I get the sense that someone cares
I don't believe in these
clothes get nothing to wear
you're blinking with a thousand-mile stare
reflected in your glare
and will I get the sense that someone cares
I don't believe in these
no am i alone(not sure)
something something
alive or dead which one is it
