

# Polaroids

## Sneaker Pimps

Pictures black and white  
or color.  
There's a postcard  
sent from heaven.  
Says make the most  
of never-never.  
Horizon starts right here.  
The future's always near.  
I know this time  
is borrowed.  
I try to remember  
then forget my sorrow. Celluloid. Monochrome.  
Or color.  
Don't want to end in tears.  
I'll leave before my fears confound.  
Scared to love.  
Wasted knowledge.  
Gift to the grave These four walls  
Could last forever.  
I could never  
be that clever. Celluloid. Monochrome. Or color.  
Don't want to end in tears.  
There's nothing left to discover.  
Did I learn to walk too soon?  
Is there time to plug the screw???  
Survive destiny.  
Polaroid me.  
What's left to say  
about yesterday?
