

# Judge, Jury And Executioner

## Atoms for Peace

Don't worry, baby  
It goes right through me  
I'm like the wind and my anger will disperseThin persecutors  
Your twisted whispers  
A horned reptile that is crawled upon the earthI went for my usual walk  
Just tell it like it is  
Tell it like it was  
Judge and jury, executioner  
Judge and jury, executioner  
Judge and juryWhen darkness follows  
And no tomorrowsIt's all been decided  
All spies deceptive  
All bouncing voices down the echo chamberDon't worry, baby  
It goes right through meI went for my usual walk  
I went around the block  
I just can't talk or reason with my executioner  
Judge and jury, executioner  
Judge and juryBeen wasting trails  
You talk in layersI went for my usual walk  
Don't worry, laugh about  
Just can't talk or reason with my executioner  
Judge and jury, executioner  
Judge and juryDon't worry, baby  
It goes right through me  
I'm like the wind and my anger will disperse
