

Comatose

Mikky Ekko

I lost my head out in the cold
Pins and needles always waiting
You lost your nerve and all control
I can feel it, I can feel it
And it feels like waiting
We push and pull revolving doors
We end up where we were before
Right back at the ceiling Like an opened door to an empty room
It's still a part of me needing part of you
In another life, we could work it out
But we never speak, so it's hard to do
We really wanna live this way
'Cause all I really want is you to stay
Maybe it's easier...
Comatose We work so hard to stay above
All temptations we created
Now we go wander and call it love
I can feel it, I can feel it
But the feel is fading
We push and pull revolving doors
We end up where we were before
Right back in the dream Like an opened door to an empty room
It's still a part of me needing part of you
In another life, we could work it out
But we never speak, so it's hard to do We really wanna live this way
'Cause all I really want is you to stay
Maybe it's easier, maybe it's easier
Like an opened door to an empty room
It's still a part of me needing part of you
In another life, we could work it out
But we never speak, so it's hard to do We really wanna live this way
'Cause all I really want is you to stay
Maybe it's easier, maybe it's easier
Comatose But I don't really wanna live this way
And all you really want is me to say
Baby we can work it out
Comatose
