Situations / Complications

Caesar

Life gets so much easier when you're stoned
Yeah life gets so much easier on your own
It's hard to get down this medicine we call time
There's a lot of it and just me who's on the lineSituations complications
Situations no no no, complications, oh ohLife gets so much easier when you're stoned
For it's hard to get down my medicine on my ownSituations complications
Situations no no no, complications, oh oh
