

# Day Dream

## Tiapason

Funny the way that I feel now  
Can't keep my feet on the ground  
Everything seems unreal now  
When you're not around  
    Day dream  
Why do you haunt me so?  
    Deep in a rosy glow  
The face of my love you show  
    Day dream  
    I walk along on air  
    Building a castle there  
For me and my love to share  
    Don't know the time  
    Lordy, I'm in a daze  
    Sun in the sky

While I moon around, feeling hazy  
    Day dream  
    Don't break my reverie  
    Until I find that he  
Is daydreaming just like me  
    Don't know the time  
    Lordy, I'm in a daze  
    Sun in the sky  
While I moon around, feeling hazy  
    Day dream  
    Don't break my reverie  
    Until I find that he  
Is daydreaming just like me
