Narayan

The Prodigy

If you believe the Western Sun
is falling down on everyone
If you're breaking free
And the morning's come
If you would know
Your time has come.
If you believe in the Western Sun
is falling down on everyone
And you feel it burn, don't try to run
And you feel it burn, your time has come.
And I feel it.
I feel another energy
and I feel power through it
I feel another energy
and I feel power through it
You feel another energy
and I feel power through it
If you believe in the Western Sun
is falling down on everyone
If you're breaking free
And the morning's come
If you would know
Your time has come.
If you believe in the Western Sun
is falling down on everyone
And you feel it burn, don't try to run
And you feel it burn, your time has come.
And I feel it.
You feel another energy
And I feel power through it
You feel another energy
And I feel power through it
You feel another energy
And I feel power through it
Umm Naman Narayanna
Umm Naman Narayanna
Umm Naman Narayanna...
And I feel it.
And I feel it.

And I feel it.
I feel another energy.
You feel another energy
And I feel power through it
You feel another energy
And I feel power through it
