

A Memory's Lament

Reuben And The Dark

A Memory's Lament

Reuben and The Dark

(Capo 5th Fret)(C G C - C G F C - C G C)

I wrote a song for the ones that I remember

A memory's lament, all the lovers I have met

Well I wrote a song for the the ones that I forget(C - F C B7 Am - F C Em)

And take these, dreams from me

I don't need an easy way now...

They're just dragging my body around(F C F C F C G)

Well I... buried my brother, I

Buried my lover, I

Buried my head in my hands...

(F C F C F C G)

And you said...

All of my burdens are

Too much to bear, and your fingers through my hair...

When I wanted you to stay with me(C G C - C G F C - C G C)

You come from the forrest I bet

With hair as long as a sunset...

You come from the forrest I bet

With soul as good as a hunter's guess(C - F C B7 Am - F C Em)

And I was, younger than you

Well I saw these wicked ways

Another bill that time will... pay(F C F C F C G)

Well I... buried my brother, I

Buried my lover, I

Buried my head in my hands...

And you said...

All of my burdens are

Too much to bear, And your fingers through my hair...

When I wanted you to stay with me

Who knew you'd be leaving me for...(F C F C F C G)

Buried my brother, I

Buried my lover, I

Buried my head in my hands...And you said...

All of my burdens are

Too much to bear, And your fingers through my hair...

When I wanted you to stay with me

Who knew you'd be leaving me for Dead... (Ends on Am)
