## All Heroes

You dont have to hide  
You dont need to be scared  
I know youre somewhere close tonight  
I can feel you in the air I swear its safe where I go  
So when you see me, you should follow me forever  
Remember the night we met?  
You kissed me on the cheek and I held your hand  
But time was against us  
Hurry up, lets spark this harder life  
You said to me: Do you know who I am?  
Of course I know who you are.  
How can you be so sure?  
Its easy, believe me, I know.  
I just know it, I know it, I know.  
Musics told me all I need is you. Forget everything you learned  
Ill lead you to safety, just follow me forever  
Why did you come for me?  
Not now, get up and run, here comes the enemy.  
My news ears are timeless, they taught me how to stand and fight!  
So come with me! Do you know who I am?  
Of course I know who you are.  
How can you be so sure?  
Its easy, believe me, I know.  
Well be together in time  
But time was always against us Do you know who I am?  
Of course I know who you are.  
How can you be so sure?  
Its easy, believe me, I know. Remember back when we were kids  
Dont say a word, cause if you do theyll be after you  
Picture a world where no child is left behind  
Invisible but you can see it  
Take the stairs and turn around  
Down, down, down  
Waiting for days and days, in leave I stayed, its like  
This is where my story began, this is where it ends  
Take to the sky, take to the streets  
Youve got mine and Ive got your back My heart is yours but time was always against us  
My heart is yours but time was always against us  
My heart is yours but time was always against us

My heart is yours but time was always against us  
My heart is yours but time was always againstMy heart is yours  
My heart is yours but time was always  
My heart is yours
