You're In My Head

Brian McComas

I don't know why I'm even calling
I told myself I'm through with fallin'
Right now I should be runnin' from these thoughts of you
That just keep comin' but I can'tYou're in my head, you're in my heart
You're in that song on the radio in my car
Even in my dreams I feel your skin
On my skin out of breath
Each day ends like it begins
You're in my headI drove four hundred miles the other day
Biggest mistake I think I ever made
I saw you on every billboard sign
In every car that passed me by, I saw your faceYou're in my head, you're in my heart
You're in that song on the radio in my car
Even in my dreams I feel your skin
On my skin out of breath
Each day ends like it begins
You're in my headAin't no trigger I can trip, no switch that I can flip
Even if I wanted toYou're in my head, you're in my heart
You're in that song on the radio in my car
Even in my dreams I feel your skin
On my skin out of breath
Each day ends like it begins
You're in my headI can't turn it off
