Switchblade Symphony

[?]I have an empty soul
It's a warning
I feel that you should know
It's a warningIf you leave, if you leave
What am I?
I will follow, I will follow
What am I?
Yes, they are stomping on the switches
[?]To an empy view
Take my back roads, 'round my fencesIf you leave, if you leave
I will follow, I will follow
What am I?
What am I?
Yes, they are stomping on the switchesClimb the ladder straight to heavenWhere the creatures dulcify
Surprise...
Gods and devils take their pillows
Get in position to multiplyIt's a warningIt's a warning
It's a warning
I will follow, I will follow
If you leave, if you leaveIf you leave, if you leave
I will follow, I will follow
If you leave, if you leave
I will follow, I will followWhat am I?
Yes, they are stomping on the switchesWhat am I?
