Walk On

Corinne Bailey Rae

Walk on through the heavy storm
Walk on through the storm

Keep moving
Keep moving on
Though you canâ€™t find your way
There will be a light
There will be a light that shines in the darkness
Keep moving on

Thereâ€™s a way, there's a way
Thereâ€™s a different way than you came from
Thereâ€™s another way
You donâ€™t have to go back the same way you came from

Thereâ€™s a light, thereâ€™s a light
That shines in the darkest night
Thereâ€™s a whisper in the silence
You may be drowning and find you can breathe underwater
Thereâ€™s a whisper in the silence

Thereâ€™s a secret
And it flows
And it flows
In the darkness
You can find your way
You can find your way in the darkness
The stars and the constellations know your name!
The stars and the constellations know your name!

No one is forgotten here
No one is forgotten here
And no time is wasted time
No time is wasted time

Thereâ€™s always a lesson
You could be my teacher
