

# Over & Over

## Moloko

No, I wont interfere  
Im the only sound youll ever need to hear  
Listen to my breath so near  
Allow me to be every noise in your ear Since that day I wake up early  
Every morning which is good  
But my stomachs churning, call me  
It would be nice if you could Some days I question the suggestion  
You might not exist at all  
Can we meet and talk it over?  
Would you be kind enough to call? Over and over, its over all over  
And over and over and over and over  
And over and over, its over all over  
And over and over and over and over and No, theres no middle ground  
Your off in another story or merry-go-round  
No, therell be no measured terms  
You fly in the face of the way the world turns Like a frozen tidal wave  
Since that day Im standing still  
You brought me here and I accept  
Though you regret I never will Just one sweet word  
And then a smile from you  
Is almost worth everything  
Ive given all I had to give  
But you gave up giving in You are everywhere I go  
All the places we have been  
I cant imagine where you are  
For you are all Ive ever seen Over and over, its over all over  
And over and over and over and over  
And over and over, its over all over  
And over and over and over and over and Over and over, its over all over  
And over and over and over and over  
And over and over, its over all over  
And over and over and over and over and Over and over, its over all over  
And over and over and over and over  
Over and over and All Ive ever known  
All Ive ever seen  
Places that I go  
Places that weve been
