## God Lives Underwater

I know what it takes to normalize  
To slow me down and cut me down to size  
I wanna get that feeling to touch the ceiling  
So send me reeling, I wanna know How can I ease my mind, ease my mind?  
Yeah, I'm being taken away  
I'm feeling that I'm finding my way  
To something that's completely overwhelming me I get tired of most everything  
I anxiously await the gifts you bring  
I spend my time thinking and I hate thinking  
To stop this thinking I want to know How can I pass the time, pass the time?
