Nostalgia

4Lyn

I found a picture of you and me
from 1989 when we
shared the world together
happy as teens could be
Life's a whirlwind and time's a whore
I pick our past up off the floor
I write these lines just in case
I don't see you no more
Maybe you're married
you've got it made
Maybe you're famous
or just get played
Maybe you showed up at our show
but maybe I will never know
[chorus]
no, I will never know
cuz' you're somewhere
where I can't go
a million miles away
or right here next to me
I've tried so many times
to find the home that once was mine
a million miles away or
right here next to me
[end chorus]
just one sign is all I want
to move on where we started from
I've tried as hard as I could try
not even sure you're still alive
what's with all that we once shared
please forgive me but I care
I scream as loud as I can scream
but you don't hear me
[chorus]
I survived our separation
but I can't wait for all time
all I need is a little information
so I can leave it behind
[chorus]
