Shake Those Windows

Athlete

Lives in Edinburgh an' just across the road
Sometimes my stereo and in my aching bones
It's on the sugar hill and in your ring tone
Shake those windows
Songs and songs and beats and rhymes in life
This blackout, it just helps to love those clear night skies
An' just let the record play and bring it back again
You can't appreciate what we were into then
In two seconds the beat was recognized
And all the old school heads nodded back in time
And though we just met, I've known you all my life
Shake those windows
Songs and songs and beats and rhymes in life
This blackout, it just helps to love those clear night skies
Just let the record play and bring it back again
You can't appreciate what we were into then
An' just let the record play and bring it back again
You can't appreciate what we were into then
Just let the record play and bring it back again
You can't appreciate what we were into then
Just let the record play and bring it back again
You can't appreciate what we were into then
Just let yourself go
Just let yourself go
Just let yourself go
Just let yourself go
Just let yourself go
Just let yourself go
Just let yourself go
Just let yourself go
