

# Touch And Go

[Melissa Etheridge](#)

In a room full of silver shadows  
A customary kiss goodnight  
And it slips through your tightened shoulders  
It reaches your heart and dies And the sadness is bound to kill me  
But I'm too far away to care  
And I'd just like to know if you will  
Could I even get there Oh, back to the touch and go  
When not a soul could know  
When you lovin' was slow  
We lived every night for the touch and go Now there's no one in the night to blame you  
No one in your glasses of wine  
I never won I only tamed you  
Foolishly I called you mine And you're pacing your cage every morning  
And you rattle your chains every night  
And you stare past the bars never knowing  
With nothing left to put up a fight Then we would touch and go  
When not a soul could know  
Oh, your lovin' was slow  
And we lived every night for the touch Oh, remember the touch and go  
When not a soul could know  
Oh, when your lovin' was slow  
We lived every night for the touch and go Are you still breathing Tonight the scent is in the city  
Tonight it's on the radio  
Tonight I'll leave the key beside the door  
Tonight I'm gonna touch and go
