

# No Paradise for The Damned

[Nasum](#)

The world we knew has come to an end  
Bombs cloud the sky as the destruction begins  
Death, hear the screams from the dying race  
The flames feed the  
holocaust as radiation burns  
The wind of devastation turns the earth into ashes  
Hell is awaiting us, as we realize  
Earth ain't no paradise, no paradise for the damned  
Death, hear the screams from the dying race
