

Inside

Sevendust

Pleased to meet the motherfucker with the first laugh
Expect the best but you see the glass is half empty
You're looking for a sacrificial lamb
(I know your secret)
Try not miss the warnings
You know you have to own up for yourself this time
The answer's inside
Karma has come to take a payment from your ass now
Your second guessing has you beaten down and so empty
The misery your company brought to you
(Was your fucking headache)
Try not miss the warnings
You know you have to own up for yourself this time
The answer's inside
You're scared of the changes coming
You know you better hold on to yourself this time
The answer's on the inside
Here comes the payback
You think you know it all but it's my turn
To tell you what I see
(I know your secrets)
Try not miss the warnings
You know you have to own up for yourself this time
The answer's on the inside
You're scared of the changes coming
You know you better hold on to yourself this time
The answer's on the inside
