

Body Bag (Reissued)

Obituary

You're rising
Cure you of the dead You're dying
Live beyond the way
Falling through the gates
Scavenge you
With the darkening light
through the falling going low
through the death of those
The dying We're dying
Healing of the one
Falling of the days
Charring in the sun We're dying
Killing for the need
Violence of the ways
Slowly bleed
Killing for the need Rising of the dead
The falling ways
The killing for the need
Darkened light The rising of the dead
With the darkening light
