

Slow Down

[Soja](#)

You can search the world for signs of life
and realize the truth is in your Heart
you can try to become who you want
and never get away from who you
Are you can trust another like no other
watch them fall and then you fall Apart
it tears you apart
I've always seen myself alone but in my darkest hours
There you are
Where's my guitar
Chorus:

So I Can Say Oh Now Oh Now Oh Now Now Now Now Now (2x)
Oh Now You Gotta Slow Down
Oh now all I have Is Now
Oh Now oh Now now now now

I've been all around the world to find it
travel east and west like everyday
I've been high and low since I have lost it
how do I get back to yesterday
it feels like a game
I have seen the look in peoples eyes sometimes
and all I do is chase them away, I chase them away
cause I have been all around the World to find it
every time I do I don't let it stay
I chase it away, so now I say...

Chorus
Oh Now Oh Now Oh Now Now Now Now Now (2x)
Oh Now You Gotta Slow Down
Oh now all I have Is Now
Oh Now oh Now now now Oh now yea
Oh now you got slow down.
