Permission To Party

Ksm

What?
Play, yeah
Listen up
C-c-come on
Get up early, don't be late for school
Slow down to 55 on every single rule
Turn off your cell phone when the movie starts
Get back home before it gets dark
Come on enough with this war
We should do, we got nothing to prove
After all the work is through
Let's go, we don't need no permission to party
Let's rock non-stop 'cause everyone's got permission to party
Now we're vacationing and satisfaction guaranteed
And we don't need no permission to party, permission to party
Do your homework, clean up your mess
Don't act too crazy when your parents entertain guest
Get off your live talk, hang up the phone
Sometimes you just wanna lose control
Come on enough with this war
We should do, we got nothing to prove
After all the work is through

Let's go, we don't need no permission to party
Let's rock non-stop 'cause everyone's got permission to party
Now we're vacationing and satisfaction guaranteed
And we don't need no permission to party, permission to party
Everyone's got the right to take a little holiday
No requirements except to have some fun, oh
Everybody knows just what to do, live a little, celebrate
I know, you know we don't need no permission to party from anyone
Alright, everybody, yeah, yeah, yeah
C-c-come on, this time we're making the rules
'Cause we've got something to prove
So what you gonna do?
Let's go, we don't need no permission to party
Let's rock non-stop 'cause everyone's got permission to party
Now we're vacationing and satisfaction guaranteed
And we don't need no permission to party, permission to party

Let's go, we don't need no permission to party
Let's rock non-stop 'cause everyone's got permission to party
Now we're vacationing and satisfaction guaranteed
And we don't need no permission to party, permission to party
Yeah, yeah, yeah, oh
