

# Sail Along, Silvery Moon

[Andy Williams](#)

Sail along silvery moon  
Trail along lover's lane  
Sail along silvery moon  
To my love again In the glow of your light  
Let me see her tonight  
Once again, hold her tight  
Back in lover's lane And then the whole world will seem brighter  
As we stroll hand in hand  
Two blue hearts will be lighter  
You understand Sail along silvery moon  
Trail along lover's lane  
Sail along silvery moon  
To my love again
