

# Never Ending Summer

311

Tell you what I like this moment of unity  
When there's no distance in between you and me  
I gotta stop when it becomes us and them  
Need an enemy for ego to win These are the good old days  
I don't care what they have to say  
These are the good old days  
All together now So tell me can this all be real? Find it so bizarre  
Can this all be real? Orbiting a star  
Find it too intense to be a coincidence  
I don't think you gotta let go of common sense  
Can this all be real, right now? Summer, never ending summer  
That's our time, we do it all the time  
From Tokyo Bay to the Little Five Points  
Keep on blazing a trail, keep on rocking the joints  
Summer, here we go, na, na, na, na, na, na Hanging out with my friends, we're traveling  
Out and about, good times that we're having  
It's harmonic bliss when we all are synchronized  
Something got to see with your eyes These are the good old days  
I don't care what they have to say  
These are the good old days  
All together now Can this all be real? Find it so bizarre  
Can this all be real? Orbiting a star  
Find it too intense to be a coincidence  
I don't think you gotta let go of common sense  
Can this all be real, right now? Summer, never ending summer  
That's our time, we do it all the time  
Tokyo Bay to the Little Five Points  
Keep on blazing a trail, keep on rocking the joints  
Summer, here we go, na, na, na, na, na, na Summer, never ending summer  
That's our time, we do it all the time  
Tokyo Bay to the Little Five Points  
Keep on blazing a trail, keep on rocking the joints  
Summer, here we go, na, na, na, na, na, na Summer, never ending summer  
That's our time, we do it all the time  
Summer, never ending summer  
That's our time, here we go, na, na, na, na, na, na
