Is It My Body

Alice Cooper

What have I got
That makes you want to love me?
Now, is it my body or someone I might be
Or somethin' inside me?You better tell me, tell me
It's really up to you
Have you got the time to find out
Who I really am? OhWhat does it take
To get inside of your mind?
Give me a break, yeah
And take a chance for the very first timeYou better tell me, tell me
It's really up to you
Have you got the time to find out
Who I really am?What have I got
That makes you want to love me?
Now, is it my body or someone I might be
Or somethin' inside me?You better tell me, tell me
It's really up to you
Have you got the time to find out
Who I really am?
