

# Liquid Personality

## Faktion

Two more and I'm on my way to my liquid personality  
I'll turn into a clown  
No one can bring me down  
Who wants to get liquefied  
Scream, lets get unified  
Let loose, we are justified  
Now, it's time to unwindChorus:  
Hey look it's my liquid personality  
I just can't control myself  
My inhibitions have all gone sailing  
So, lets have another roundI've had a few and it's safe to say  
that I've finally breeched reality  
I'm 10 feet off the ground  
No one can bring me down  
Who wants to get liquefied  
Scream, lets get unified  
Let loose, we are justified  
Now, it's time to unwindRepeat ChorusWe're lying down though we're spinning around  
This feeling is out of control  
Let's get up cause we're liquefied  
It's ok we're unified  
We need to have just one more roundRepeat Chorus
