

Take Everything

[Mazzy Star](#)

I can't believe your thinking
Save everyone, inside you
Take everything
Fake everything
Save everything
About meAll of you, all right
Just because, I want to know
Do you still come last night clear eyes pale?
You never got there even though you say you will
Sorry now that you've fallen from my eyes
That's the truthWhy are you telling me about everything?
Why are you telling me about anything?
You're just waiting for her to come apart
You're just waiting for herTake everything
Fake everything
Save everything
