

# Pharmacide

## Magrudergrind

Another dose  
Sedates the urges  
The liquid flows  
A new high surges It all started out  
With a doctor's note  
A prescription wrote  
For legal dope A visit to the local pharmacy  
And a prayer to change  
And wishful hope  
Anxiety disorder?  
Swallow klonopins  
Down your throat  
Stress from work?  
The pharmacy's got  
The perfect cure Medical advice  
Without understanding  
Convincing ourselves  
That we lack any self control  
Self discipline triumphed  
The medicinal path commands  
The mind and agency fail  
Mind and agency fail  
Anxiety disorder?  
Swallow klonopins  
Down your throat  
Stress from work?  
The pharmacy's got  
The perfect cure Addiciton feeble mind  
Frail infrastructure
