

# The Kids Just Sleep

## Buffalo Tom

I never thought that life would - carry on this way  
Growing up outside of - Baltimore/DCBut as the sun goes down  
    I put my kids to sleep  
    I wonder if they hear their  
    Father start to weepThe kids just sleep  
        The kids just sleep  
        Kids just sleep  
    The kids just sleepAs the sun comes burning  
        Through the trees  
    All the leaves are brown and  
    Falling down on meAs the sun goes down  
        I put my kids to sleep  
And I wonder if they hear their father start to weepThe kids just sleep  
    The kids just sleep  
    The kids just sleep  
    Kids just sleepI never thought that life would be this way  
        In a vampire house in the USA  
    I never thought that life could be so cold  
In a vampire house, living all a lone they - sleepThe Kids just sleep  
    The Kids just sleep  
    The Kids just sleepI'd like to put myself to sleep  
    I'd like to put my head down to sleep...
