

I Was Just Leaving

[Ryan Montbleau](#)

Sun came up
Sun went down
Looking for reasons in my head again
Where are you now
Where you've always been
Far from where i am
Did I keep you there or did you run
Was it what I didn't do or was it what I done
I been hanging out alone
Living on my own
Just breathing my heart's for you
Thought we'd try to build a home
Turns out i was wrong
I was just leaving
Leaving like I do
Leaving like I do
Words came out and they fell to the floor
And i prayed to the heavens they'd go back in again
Such a simple solution
Turn back around
Little bit of sugar and we're good again
Did I talk too much or not at all
Something must be wrong with my head cause I can't recall
I been hanging out alone
Living on my own
Just breathing my heart's for you
Thought we'd try to build a home
Turns out i was wrong
I was just leaving
Leaving like I do
Leaving like I do
Like I do
