Clarity

White Apple Tree

Shaking now I'm high and out
Twice this week
I'd kill myself for recognition
Ice and beer, an Idolizing fear
The straw's been drawn
Is this all that we were given?

Clarity

Death pays out
Life is all played out
Watch and see
The French kids smoking on the screen
So I adjust my tie
Cover up my eyes
The tint is dark
So no one sees their shit fall apart

Clarity

Limousines water swept underneath
Public sheen televised on the screen
Clarity sealed off by fresh pink slip
Golden reigns silence is not a tip
