

# Rains in Asia

## Jump, Little Children

She likes the photograph  
The one of you and Simone  
Out in the rain on a Sunday morning  
She likes to take it out  
Only when she's feeling down  
And then she says, "Can you hear it raining?" She wants to know, does everyone feel this way?  
When it rains in the summertime  
She wants to know, does everyone feel this way?  
When you're sure that he's gone forever When it rains in Asia  
It makes her feel this way  
California  
It makes her feel this way  
London, Bombay  
It makes her feel this way  
When it rains in Asia She likes to take the train  
Down to Washington Square  
And hear the busker sing, "Oh Susannah"  
She likes to let it come  
Right to the tip of her tongue  
And then she feels like an angel talking She wants to know, does everyone feel this way?  
Outside the walls of America  
She wants to know, does everyone feel this way?  
When you're sure that he's gone forever When it rains in Asia  
It makes her feel this way  
California  
It makes her feel this way  
London, Bombay  
It makes her feel this way  
When it rains in Asia She wants to know  
Is it always, always raining somewhere?  
She wants to know  
Is it always, always raining somewhere?  
Yeah yeah yeah When it rains in Asia  
It makes her feel this way  
California  
It makes her feel this way  
London, Bombay  
It makes her feel this way  
California

It makes her feel this way  
London, Bombay  
It makes her feel this way  
When it rains in Asia
