That Ain't Good

Hank Williams Jr

A different boss at work that might do me well
Cause Im kinda mad at someone
Who thinks that they can tell me what to say and do
Hey everybodys got a butt and a point of view
Well I used to like to go fishin watch that hook and line
But I sold my boat and motor and everybody wonders why
And that aint good
No that aint good
Cause that aint me
My wife went to a lawyer I never dreamed she would
Now my address is rock bottom and they know me in this neighborhood
That aint good
No no that aint good
I need to get outta here
Watching these nuts on TV blowing themselves to Hell
So they can all get to Heaven and my kids want me to tell tell em why
Did all those people have to die
No that aint good
Cause I dont know why
Went to church Sunday morning I never thought I could
Prayed to the man to help me get back to being myself like I should
And it done me good
Yeah it done me good
You gotta look on the good in this world
Im looking for the good
