

Must Be Good To You

Tamar Braxton

Remember that time, that time I blew your mind?
Now you don't wanna share-
Must be good to you.
And didn't you say that love ain't worth your time?
Now you're right back here-
Must be good to you...A piece of this shirt, you entangle.
Ooh! It's something major! (Oohoo!)
You don't know what to do!
Now every time I pick up my phone, you on the line!
Yeah! I put my hooks on you.
Bitch!Hell yea, I love it. I love it.
It must've been good to you.
Must've been good to you.
Must've been good to you. (Must be good to you!)
Hell yea, I love it. (I love it, ooh!) I love it.
It must've been good to you.
Must've been good to you.You love how it feels, don't you
You love how it kills, don't you?You looking'- don't stare.
Bad for your eyes.
I'll be your feature.
Now it's your time.
Yea, I know that it's good to you.
Take a picture."Would've been my fit" - I know you fantasize!
A-look at that there-
I know it look good to you.
You looking all day for me-
Where your flashlight?
It's right over here
And I might be in the mood for you. DamnA piece of this shirt, you entangle.
Ooh! It's something major! (Oohoo!)
You don't know what to do!
Now every time I pick up my phone, you on the line!
Yeah! I put my hooks on you.
Bitch!Hell yea, I love it. I love it.
It must've been good to you.
Must've been good to you.
Must've been good to you. (Must be good to you!)
Hell yea, I love it. (I love it, ooh!) I love it.
It must've been good to you.

Must've been good to you. You love how it feels, don't you
You love how it kills, don't you? You looking'- don't stare.
Might go blind.
I'll be your feature.
Now it's your time.
I know that it's good to you.
Get the picture? Ain't you so surprised-?
I done blew your mind?
Make your eyes roll back-
Like it's '95.
Is it good?
Is it good to you?
I bet you didn't think I'd make a fool of you...
Cause I know that it's good to you...
Ohhhh! Hell yea, I love it. I love it.
It must've been good to you.
Must've been good to you.
Must've been good to you. (Must be good to you!)
Hell yea, I love it. (I love it, ooh!) I love it.
It must've been good to you.
Must've been good to you. You love how it feels, don't you
You love how it kills, don't you?
You looking'- don't stare.
Bad for your eyes.
I'll be your feature.
Now it's your time.
Yea, I know that it's good to you.
Get the picture?
