Kings & Queens

Mat Kearney

[Verse 1]
I don't need much with you my love
Cause the champagne drains and the airplane fame turns into rust
I don't need much with you my love
Cause the Hollywood hills won't ever make me feel as good as us
You got me singin'[Chrous]
We don't need no bankroll make us feel alive
We don't need no benzo to feel like we can ride
Richer than Solomen with you by my side
We'll be Kings & Queens in our own mind
We don't need no jet plane feel like we can fly
We don't need no cold chain just to watch it shine
Twenty four carat lies we don't got the time
We'll be Kings & Queens in our own mind
[Verse 2]
I got everything I'll ever need
You can cash every check try to buy a respect that's incomplete
I got everything I'll ever need
Don't gotta make it to the top yeah to know what I got
With you and me
You got me singin'[Chrous]
We don't need no bankroll make us feel alive
We don't need no benzo to feel like we can ride
Richer than Solomen with you by my side
We'll be Kings & Queens in our own mind
We don't need no jet plane feel like we can fly
We don't need no cold chain just to watch it shine
Twenty four carat lies we don't got the time
We'll be Kings & Queens in our own mind
[Bridge]
All the feels tonight are real
All that's real you can't buy or steal
All the feels tonight are real
All that's real you can't buy or steal[Chrous]
We don't need no bankroll make us feel alive
We don't need no benzo to feel like we can ride
Richer than Solomen with you by my side
We'll be Kings & Queens in our own mind
We don't need no jet plane feel like we can fly

We don't need no cold chain just to watch it shine
Twenty four carat lies we don't got the time
We'll be Kings & Queens in our own mind
We'll be Kings & Queens in our own mind
We'll be Kings & Queens in our own mind
