

Sirens

Echo Orbiter

Run up and down above the static
Another angle for blank adulation
In company of peers, beauty in ruin

Lavender
Little town
Hornet sting
Luminous
False idol
Etcetera
Shift my privilege when sirens wail

Thankful as hell
A three year plan
Newton observed
And Shakespeare voice
(Fill all things life, Disguise burnt eyes)
And empty streets we dig for bread

Aerial wisdom, foolishness of speech
Radiant marriage calms any genius
To bring two together and sing a sad song

Paradise
Innocent
Uncertain
Beginning
Wondrous
Astounding
Part the harmony thatâ€™s out of key
