

# Thrasher

## Cavalera Conspiracy

Thrasher Master of disaster  
Thrasher faster and faster  
Thrasher in this disaster  
Thrasher forward thrasher  
Our legions growing through the world  
What we started you cannot control  
We're taking over one and all  
United we can never fall  
Now it's on you can't control  
Now it's on against the world  
Now it's on we are the ones  
Now it's on the chosen ones  
Thrasher I'm the aggressor  
Thrasher never say never  
Thrasher the killing weather Thrasher against the oppressor  
We come to take over your soul  
Against the world is blood for blood  
No one can tell us where to go  
We're everywhere and now it's on  
Now it's on you can't control  
Now it's on against the world  
Now it's on we are the ones  
Now it's on the chosen ones  
The chosen ones...  
Now it's on you can't control  
Now it's on against the world  
Now it's on we are the ones  
Now it's on the chosen ones
