Little Man

Lila Downs

big money don't count for a happy life
little man with a big heart
make a happy wife
big money don't count for a happy life
little man with a big heart
make a happy wifehe's a simple man in a foreign land
every day he works for today
for the future he cannot say
he's livin' the real one underneath his skin
he got an itch he need to find
a real woman to stay alivebig money don't count for a happy life
little man with a big heart
make a happy wife
big money don't count for a happy life
little man with a big heart
make a happy wifeshe's a simple soul in a foreign home
clean the floor, clean the plate
simple life - for a simple fate
work is good, pay is OK
all she wants is a man who'll let her
in his heart one day
