Jin Akanishi

You said, nothing is dead
For you lost something in the dark

You said, her mother say
Take all that you want

You ain't gotta run

I'mma need somebody
Please don't let me fall
I'mma need somebody
But don't heat me up

Said you want it but what the fuck does that mean bitch?
Said you want it but what the fuck does that mean bitch?

You said make your own bed
When you move away in the dark

You said know you couldn't fight
But there ain't no way out

She the one I want

I'mma need somebody
Stuck here on my own
I'mma need somebody
'Cuz I'm giving up

Said you want it but what the fuck does that mean bitch?
Said you want it but what the fuck does that mean bitch?
Said you want it but what the fuck does that mean bitch?

I said nothing is dead
For you lost something in the dark
You said her mother say
Take all that you want
