

# Set It On Fire

## Scientists

I wish my girlfriend was more like you  
I lose my mind with the way you move  
The way you throw your hair around  
You got a smile that knocks me down  
You tell me when it's time then you tell the truth  
Yeah, that's what you do  
My world comes crashing down  
When you come around  
You set it on fire, you take my world  
And turn it up, turn it up  
Yeah, the way you move  
You burn it up, burn it up  
You set it on fire, take my world and  
Turn it up, turn it up  
Yeah, the way you move  
You burn it up, burn it up  
You set it on fire
