# Enough

## Julie Anne San Jose

Yeah, yeah, yeah, yeah (2x)
Remember those times we had
The good, the happy and sad
I never thought we got around
When things went tumbling down
I guess we got lonely
There was no one else for us to turn to
?Coz I don?t need you any longer
?Coz now I?m stronger
Chorus:
Enough! No more!
It?s time for you to be on your way
Time?s up! Get out!
No need for us to figure it out
Let go! Move on!
It?s time to go our separate ways
Enough! Be gone!
The hurt, the pain will only remain
Yeah, yeah, yeah, yeah
No need for us to figure it out
Yeah, yeah, yeah, yeah
The hurt, the pain will only remain
Stop trying to call me
Stop messing with my mind
Why can?t you see
That there?s nothing else that you will find
?Coz we?ll only keep on fighting
And our hearts will only keep on hurting
Tell me who are we fooling
With our selfish pride
Chorus:
Enough! No more!
It?s time for you to be on your way
Times up! Get out!
No need for us to figure it out
Let go! Move on!
It?s time to go our separate ways

Enough! Be gone!

The hurt, the pain will only remain
(Stay away)
?Till the clouds settle
(Find a way)
For our hearts to be sober
(And someday)
I hope and I pray
Maybe we could be good friends
Take a turn in our destined end
Oooooh-woah, noo
Bridge(Rap):
This is enough
Yeah, we fuss and fight
What a damage we?ve done
And I knew that we ain?t gon? make it right
Lookin? at the mirror
This body and mind is wasted
And now I just feel so ashamed
To feel like I?ve been chasin?
The love I never thought would last
I guess that was the past
I remember all the memories,
The things we used to have
I?m movin? on, but you keep comin? back
It?s too late, it?s too late (yeah!)
?Coz it?s over, yeah
Chorus:
Enough! No more!
It?s time for you to be on your way
Times up! Get out!
No need for us to figure it out (Figure it out)
Let go! Move on! (Move on!)
It?s time to go our separate ways
Enough! Be gone!
The hurt, the pain will only remain
Yeah, yeah, yeah, yeah
No need for us to figure it out
Ooooh
The hurt, the pain will only remain
Ooooh, oooh, nooo, ooh
