

# Feel Right

## Bardot

What's that look on your face  
So miserable uncomfortable  
Why you looking so sad  
I thought you'd get into it  
Relax and go with the flow  
Should take it slow you never know  
Are you feeling alone  
Maybe you should go  
You seem so serious that won't get you nowhere  
Take a breath and count with me  
Come on now one two three  
Because you're uptight  
Everything is gonna be alright alright  
Uptight why don't you just let yourself feel right uh huh  
You know you're uptight  
Everything is gonna feel alright alright  
Uptight why don't you just let yourself feel right  
Oh yeah  
Wipe that look of your face  
So confused you're not amused  
Why you looking so sad  
Thought that you'd get with it  
Come on now get with it

What's running through your head  
What is running through your mind boy  
Take a breath and count with me  
Come on now one two three  
Because you're uptight  
Everything is gonna be alright alright  
Uptight why don't you just let yourself feel right uh huh  
You know you're uptight  
Everything is gonna feel alright alright  
Uptight why don't you just let yourself feel right  
Oh yeah  
Take a deep breath don't get uptight unwind have fun with me  
Take a deep breath it will be alright relax and you'll be free  
Take a deep breath don't get uptight unwind have fun with me  
Take a deep breath it will be alright relax and you'll be free

What's running through your head  
What is running through your mind boy  
Take a breath and count with me  
Come on now one two three  
Because you're uptight  
Everything is gonna be alright alright  
Uptight why don't you just let yourself feel right uh huh  
You know you're uptight
