

# Perfect Time

**Kristine Alicia**

You found a place between the lights  
Of yesterday I could not hide  
We can make it if we only try  
We can make it  
And there you are in perfect time  
You're standing still, you're hands in mine  
And I love you for who you are  
And I love you just how you are  
You are, you are the only one for me  
And you are, you are the only one for me  
I tried for years to get this right  
And I'm not about to lose this fight  
To lose this fight  
The longest mile I'll walk with you  
If your sky falls I'll pull you through  
And I love you for who you are  
And I love you, stay who you are  
You are, you are the only one for me  
And you are, you are the only one for me  
I tried for years to get this right  
And I'm not about to lose this  
I don't have to write it down  
I know that you'll be around  
When the days are long the loves goes on  
And everything that has gone wrong is brought into the light  
You are, you are the only one for me  
You are, you are the only one for me  
I tried for years to get this right  
And I'm not about to lose this fight  
To lose this fight
